## DETAILED ACTION

### *Election/Restrictions*

1. This application contains claims directed to the following patentably distinct species of the claimed invention: Group I – Dishwasher with a rack having an exterior coating of an electrocoated layer, a polymer layer and a primer layer, Group II – Dishwasher with a rack having an exterior coating of an electrocoated layer and a polymer layer, but no primer layer, Group III – Dishwasher with a rack having an exterior coating of an electrocoated layer, a polymer layer, and a non-water-based primer layer, Group IV – Dishwasher with a rack having an exterior coating of an electrocoated layer, a polymer layer, and a water-based primer layer, Group V – Dishwasher with a rack having an exterior coating of an electrocoated layer, a thermoplastic polymer layer, and a primer layer, Group VI - Dishwasher with a rack having an exterior coating of an electrocoated layer, a thermoplastic polymer layer, a primer layer and a corrosion-resistant layer, Group VII – Dishwasher with a rack having an exterior coating of an electrocoated layer, a thermoplastic polymer layer, but no primer or corrosion resistant layers, Group VIII – Dishwasher with a rack having an exterior coating of a non-metallic electrocoated layer, a polymer layer, and a primer layer, Group IX – Dishwasher with a rack having an exterior coating of a non-metallic electrocoated layer and a polymer layer, Group X – Dishwasher with a rack having an exterior coating of an electrocoated paint layer, a polymer layer, and a primer layer, Group XI – Dishwasher with a rack having an exterior coating of an electrocoated paint layer, a thermoplastic polymer

layer, and a primer layer, Group XII – Dishwasher with a rack having an exterior coating of an electrocoated paint layer, a thermoplastic polymer layer, a primer layer and a corrosion-resistant later, Group XIII – Dishwasher with a rack having an exterior coating of an electrocoated paint layer, a polymer layer, and a primer layer

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claims 1, 9-12 and 29 are deemed generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

2. A telephone call was made to John Colligan on 10/26/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Noah C. Hawk whose telephone number is 571-272-1480. The examiner can normally be reached on M-F 9am to 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lanna Mai can be reached on 571-272-6867. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
